**Thank youuuuuuuuuuu!**

**Who is Project id?** Three years ago, Project id began providing recreation, social interaction, work and personal development, and transition opportunities for adults with intellectual and physical disabilities. Our members run in age from 18 to 73, are involved with Special Olympics and various other activities which help strengthen them physically, emotionally and spiritually. We also have a Friendship church on Sundays that provides our members an opportunity to worship. Our program not only helps them, but provides guidance and assistance to lead a responsible life for them and their families right here in Spokane.

**To learn about** volunteering, financial support **for our member program,** our large rental area opportunities **and to learn more about** what we do **for our members and Spokane,** please contact:
